

Our School Intent. How is the curriculum organised?

Children begin their Spanish learning as they enter into KS2 using Language Angels. Children are introduced to the basic concepts of phonetics in Spanish and early language teaching is taught across the key stage. All children are beginning their Spanish curriculum in 2023-2024 with no prior learning of Spanish. We have adapted Language Angels into a 4 year cycle curriculum to suit the needs of our children. The First Year curriculum is therefore designed to start on the same units of learning. As the years progress, the units taught will be progressive so that all children leave our current Year 6 cohort having learnt a variety of early language, intermediate and progressively taught Spanish lessons. Our curriculum is built on the interests of our children and is adapted to reflect our school community. Each unit provides pupils with the knowledge and skills to present themselves both orally and in written form in Spanish. Children are encouraged to use their growing bank of vocabulary and ask each other questions.

Spanish curriculum and SEND

Our Spanish curriculum at Lilycroft Primary School will be ambitious for all pupils, including pupils with SEND. Children and young people with SEND will have their individual needs recognised bearing in mind that every pupil is different. Any adaptations to the Spanish curriculum should depend on pupils' specific needs considering how the subject is taught rather than the content pupils are expected to learn, recognising cognitive load and demands on pupils' working memory. Opportunities for SEND children to work with a variety of peers and be supported by a variety of expert adults will be provided, embracing and promoting an inclusive learning environment for everyone learning Spanish.
